C

calcium deposition in the neonate (*tip*), March, p. 192
cancer
—advanced gastrointestinal (*tip*), March, p. 197
—antineoplastic agents and wound healing (*tip*), March, p. 181
—breast, adrenalectomy for (*tip*), March, p. 180
—breast, multicentricity of, and lumpectomy (*tip*), April, p. 162
—cervical, portable clinic checks for, in economically disadvantaged neighborhoods, January, p. 187
—colon, multiple drug therapy in (*tip*), June, p. 126
—colon, team finds evidence of genetic resistance to, April, p. 195
—conference, American Cancer Society distributes recordings of, May, p. 161
—EPA administrator reports that few chemicals are adequately tested for their carcinogenic effects, May, p. 153
—EPA administrator says most, is caused by environmental factors, February, p. 182
—esophageal, brush cytology in (*tip*), January, p. 182
—hematemesis from metastatic carcinoma (*tip*), January, p. 173
—histamine excess in plasma cell leukemia (*tip*), May, p. 141
—histocompatibility antigens and (*tip*), January, p. 160
—human breast, duct cells in (*tip*), January, p. 182
—melanoma antigens (*tip*), March, p. 189
—membranous glomerulonephritis and (*tip*), March, p. 188
—patients, prostatic, MDs use new technique to check tumor growth in, March, p. 203
—pericardial effusions associated with malignancy (*tip*), March, p. 185
—plasma cells in urine (*tip*), May, p. 147
—primary liver cell carcinoma (*tip*), March, p. 172
—recognizing oral lesions, *May, p. 60
—screening, breast (*tip*), April, p. 179
—screening, special, AMA and AHA propose, January, p. 193
—team succeeds in efforts to raise remission rate of myeloblastic leukemia, February, p. 190
—testicular, drug regimen successful against, January, p. 190
—thyroid nodules in children (*tip*), May, p. 145
—treatment, investigators use caffeine in, May, p. 161
—type of resection for melanoma (*tip*), January, p. 156
—unknown primary in melanoma (*tip*), April, p. 167
carbenicillin hepatitis (*tip*), February, p. 162
cardiac arrhythmias, management of, *January, p. 128
cardiac transplantation (*tip*), June, p. 125
cephalothin and cephaloridine for bacterial meningitis (*tip*), February, p. 155
cerebral palsy patients use new printing device, May, p. 159
cerebrovascular disease (*tip*), May, p. 149
chenodeoxycholic acid, toxicity of (*tip*), March, p. 193
chest, flail, treatment of (*tip*), February, p. 175
children
—AAP favors breast-feeding, May, p. 163
—acute suppurative otitis media (*tip*), April, p. 161
—anorexia nervosa, *April, p. 121
—aspirin intolerance in chronic childhood asthma (*tip*), May, p. 149
—assessing development in the first three years, *June, p. 108
—benign rheumatoid nodules (*tip*), April, p. 183
—calcium deposition in the neonate (*tip*), March, p. 192
—constipation in childhood, *March, p. 85
—dumbbell neuroblastoma (*tip*), April, p. 163
—early repair of anorectal abnormalities (*tip*), January, p. 177
—elective surgery on genitalia (*tip*), May, p. 143
—febrile, bacteremia in (*tip*), March, p. 188
—fetal complications of anticonvulsant therapy (*tip*), March, p. 177
—gallstones in, radiologists report that, often not linked to anemia, January, p. 191
—hiatal hernia in the young (*tip*), January, p. 168
—high fevers in pediatric practice (*tip*), February, p. 166
—hypertension in childhood (*tip*), March, p. 171
—immunization activities of private practice patients (*tip*), May, p. 137
—implantable pacemakers in (*tip*), March, p. 185
—intrauterine rubella, head size and intellect (*tip*), January, p. 177
—ITP in (*tip*), February, p. 166
—obstructive jaundice in infancy (*tip*), May, p. 147
—occult spinal dysraphism (*tip*), March, p. 196
—osteogenesis imperfecta (*tip*), January, p. 165
—pediatric care delivered by physicians' assistants (*tip*), April, p. 174
—pediatrician proposes plan for in-home health visits, March, p. 205
—prodrome of viral hepatitis (*tip*), May, p. 147
—prognosis of tuberculosis meningitis (*tip*), February, p. 150
—screening in child care, *February, p. 85
—sexual abuse of (*tip*), February, p. 171
—study says infant mortality is higher in rural areas than in urban areas, February, p. 181
—thyroid nodules in (*tip*), May, p. 145
—urban kwashiorkor (*tip*), February, p. 151
—use of apnea monitors (*tip*), March, p. 196
—young, appendicitis in infants and, *February, p. 100
chronic pyelonephritis incidence decreases (*ed*), March, p. 69

cigarette smoking, changes associated with discontinuing (*tip*), April, p. 178
'Clinical Quiz' (*ed*), June, p. 55
clinical research by the family physician, *January, p. 121
clofibrate and progression of coronary artery disease (*tip*), January, p. 155
colitis, drug-induced (*tip*), February, p. 158
colon cancer, multiple drug therapy in (*tip*), June, p. 126
colon manifestations, irritable, of duodenal ulcer disease, *April, p. 107
color blindness, hypertension and (*tip*), January, p. 181
coma, methionine-induced hepatic (*tip*), February, p. 167
community screening for Tay-Sachs disease, *April, p. 111
compliance: a problem in medical management, *April, p. 74
constipation in childhood, *March, p. 85
Consumer Representation Plans, Conference on (*ed*), March, p. 67
contraception for adolescents, *March, p. 117
contraceptives, oral
—*January, p. 109
—and plasma vitamin levels (*tip*), March, p. 171
—effects of, on vitamin status (*tip*), February, p. 159
coronary artery disease, clofibrate and progression of (*tip*), January, p. 155
coronary blood flow, hypertonic mannitol and (*tip*), February, p. 167
coronary death, sudden (*tip*), May, p. 141
coronary disease, managing individuals at high risk of, *March, p. 148
coronary occlusion, autonomic nervous system and (*tip*), January, p. 160
creatine phosphokinase, cardiac-specific (*tip*), February, p. 149
cyclic adenosine monophosphate in hemorrhagic shock (*tip*), April, p. 174

d

delirium induced by anticholinergics, physostigmine treatment of, *May, p. 99
dentists, hepatitis in (*tip*), March, p. 184
development, assessing, in the first three years, *June, p. 108
diabetes, team develops method for early detection of, March, p. 209
drug antisubstitution laws (*ed*), April, p. 65
drug costs (*ed*), January, p. 72
drug research (*ed*), March, p. 69
drug therapy, multiple, in colon cancer (*tip*), June, p. 126
drug-induced colitis (*tip*), February, p. 158
dry eye (*tip*), January, p. 157
duct cells in human breast cancer (*tip*), January, p. 182
dumbbell neuroblastoma (*tip*), April, p. 163
duodenal ulcer, vagotomy and pyloroplasty for (*tip*), March, p. 171
duodenal ulcer disease, irritable colon manifestations of, *April, p. 107
dying (*ed*), April, p. 67
dysraphism, occult spinal (*tip*), March, p. 196

e

electrical safety, hospital, *March, p. 127
emboli, retinal artery (*tip*), February, p. 171
embolism, pulmonary, multiple myeloma as a cause of (*tip*), April, p. 179
endothelium, vascular, prostaglandin synthesis by (*tip*), January, p. 182
EPA's authority under 1970 Clean Air Act, government challenges, January, p. 192
epidermal changes during fasting (*tip*), March, p. 177
epidural abscess, spinal (*tip*), April, p. 170
ergot poisoning, diagnosing (*tip*), February, p. 154
erythema nodosum, *March, p. 99
erythroplasia of Queyrat (*tip*), March, p. 181
esophageal cancer, brush cytology in (*tip*), January, p. 182
estrogen administration, uterine hemodynamics following (*tip*), January, p. 181
exercise and weight loss (*tip*), January, p. 169
eye, dry (*tip*), January, p. 157
eye disease, MDs diagnose, using radioactive tracers, April, p. 195

f

facial nerve, parotid gland, duct and, managing lacerations of, *April, p. 130
FAH annual convention, divergent views expressed at, May, p. 154
family physician, clinical research by, *January, p. 121
family planning, choosing methods for, *April, p. 138
family practice not declining (*ed*), January, p. 72
fasting, epidermal changes during (*tip*), March, p. 177
fasting patients, salt acuity in (*tip*), January, p. 181
felons, treatment of (*tip*), March, p. 193
Felty's syndrome, splenectomy in (*tip*), April, p. 166
fevers, high, in pediatric practice (*tip*), February, p. 166
flail chest, treatment of (*tip*), February, p. 175
fluorescent antibody method, diagnostic applications of, *February, p. 74
food allergy: the 10 common offenders, *February, p. 106
FP training, required, third-year medical students at University of Mississippi take, June, p. 139
fractures, stress, *June, p. 71

g

gallstone ileus (*tip*), January, p. 155
gallstones (*tip*), February, p. 174
gastrointestinal cancer, advanced (*tip*), March, p. 197
genitalia, elective surgery on (*tip*), May, p. 143

gentamicin therapy, hypomagnesemic hypocalcemia with (*tip*), February, p. 159
glomerulonephritis, membranous, and cancer (*tip*), March, p. 188
glycoproteins in acute myocardial infarction (*tip*), June, p. 130
goiter, iodine and (*tip*), March, p. 197
'grapefruit' diet (*ed*), May, p. 51
group care for psychiatric patients, *June, p. 79

h

head, axial tomography of (*tip*), April, p. 167
headlines (*ed*), January, p. 71
health care spending, U.S., increasing more rapidly, February, p. 186
health education grant to University of Rochester, Commonwealth Fund gives, February, p. 191
heart
—assessment of aortic insufficiency (*tip*), June, p. 128
—autonomic nervous system and coronary occlusion (*tip*), January, p. 160
—blood calcium and arteriographic contrast media (*tip*), March, p. 176
—cardiac-specific creatine phosphokinase (*tip*), February, p. 149
—cardiac transplantation (*tip*), June, p. 125
—cerebrovascular disease (*tip*), May, p. 149
—clofibrate and progression of coronary artery disease (*tip*), January, p. 155

tomography, axial, of the head (*tip*), April, p. 167
transplantation, organs for (*tip*), February, p. 149
trauma care, *May, p. 110
tuberculous meningitis, prognosis of (*tip*), February, p. 150

u

ulcer, duodenal, vagotomy and pyloroplasty for (*tip*), March, p. 171
ulcer disease, duodenal, irritable colon manifestations of, *April, p. 107
urban kwashiorkor (*tip*), February, p. 151
urine, plasma cells in (*tip*), May, p. 147
urolithiasis, medical management of, *May, p. 89
uterine hemodynamics following estrogen administration (*tip*), January, p. 181

v

varicose veins, *March, p. 107
vascular disease, peripheral (*tip*), May, p. 138
vascular endothelium, prostaglandin synthesis by (*tip*), January, p. 182
vasectomy patients, MD restores fertility in, February, p. 189
vasodilators, use of, in acute myocardial infarction (*tip*), June, p. 126
vein stripping, saphenous, caution on (*tip*), April, p. 161
ventricular contractions, premature, suppression of (*tip*), February, p. 151
ventricular outflow obstruction, left, fixed and dynamic (*tip*), January, p. 161
viral hepatitis, prodrome of (*tip*), May, p. 147
vitamin levels, plasma, oral contraceptives and (*tip*), March, p. 171
vitamin status, effects of oral contraceptives on (*tip*), February, p. 159

w

water, drinking, EPA announces regulations protecting, April, p. 197
weight loss, exercise and (*tip*), January, p. 169
Wenckebach A-V block in trained athletes (*tip*), June, p. 125
wound healing, antineoplastic agents and (*tip*), March, p. 181

a

AAFP Scientific Assembly, historic Boston hosts, July, p. 123
AAFP's 28th Annual Scientific Assembly offers continuing education opportunities, August, p. 121
abdominal bruits (*ed*), July, p. 57
abdominal pain in the emergency room (*tip*), November, p. 207
accreditation letters, HEW upholds confidentiality of, October, p. 177
acetaminophen vs. aspirin, effects of, on hemostasis (*tip*), November, p. 203
adolescent mothers, hospital service program aids, September, p. 182
adolescent pregnancy, a checklist for, *July, p. 78
adoption, emotional aftermath of, *September, p. 124
alcoholic cardiomyopathy, a sex difference in (*tip*), December, p. 95
alcoholics, testosterone metabolism in (*tip*), October, p. 168
alcoholism, neurologic complications of, *September, p. 111
amikacin, *December, p. 75
anaerobic infections, *October, p. 100
anal carcinoma, epidermoid (*tip*), July, p. 105
anemia, childhood, *October, p. 124
anesthesia, enflurane, malignant hyperthermia with (*tip*), September, p. 152
aneurysm, aortic, ultrasonography for (*tip*), September, p. 161
angina pectoris, optimum therapy for, *August, p. 102
anthrax, animal products contaminated with, CPSC denies petition to ban, November, p. 213
antibiotics in smaller doses, MD cites effectiveness of using, October, p. 174
anti-inflammatory drugs, new nonsteroidal, *September, p. 142
antimicrobials in kidney and liver failure, *August, p. 92
arrhythmias, propranolol and management of, *November, p. 146
arterial baroreceptors and digitalis (*tip*), December, p. 91
ASIM delegates pass several resolutions, July, p. 123
aspirin, effects of acetaminophen vs., on hemostasis (*tip*), November, p. 203
aspirin hepatitis (*tip*), September, p. 165
asthma
—important new drugs in (*ed*), December, p. 59
—iodide therapy of (*tip*), November, p. 191
—nocturnal, and sudden death, *December, p. 62
athletic injuries of the hand, *November, p. 136
atrial septal defect, repair of, in older patients (*tip*), October, p. 152
autotransfusion, intraoperative (*tip*), October, p. 153

b

bacteremia following tooth extraction (*tip*), December, p. 91
bowel disease, inflammatory, hyperalimentation in (*tip*), November, p. 196
breast, human, precancerous lesions in (*tip*), August, p. 115
breast examinations with Pap smears, *October, p. 119
breast-feeding
—and polio vaccination (*tip*), September, p. 171
—and SIDS (*info pl*), September, p. 173
—relactation, *August, p. 69
bromocriptine: dopamine-receptor agonist, *December, p. 88
bureaucracy in action (*ed*), August, p. 57

c

calcitonin treatment of hypercalcemia (*tip*), August, p. 109
cancer
—chemotherapy for osteogenic sarcoma (*tip*), August, p. 113
—effects of operation on immune response (*tip*), October, p. 161
—epidermoid anal carcinoma (*tip*), July, p. 105
—lung, and coronary heart disease, smoking and (*tip*), September, p. 153
—major surgery in leukemia (*tip*), July, p. 106
—may kill 400,000 asbestos workers in the next 50 years, MD says, November, p. 214
—mediastinal Hodgkin's disease (*tip*), October, p. 159
—patients, stomach, new drug regimen increases survival time of, July, p. 127
—precancerous lesions in the human breast (*tip*), August, p. 115
—preventing central nervous system leukemia, *November, p. 106

—staging of Hodgkin's disease (*tip*), August, p. 109
cardiac function, methyldopa and (*tip*), November, p. 209
cardiac massage, closed chest, complications of (*tip*), December, p. 93
cardiac murmurs in young healthy women (*tip*), November, p. 203
cardiograph, displacement (*tip*), September, p. 155
cardiomyopathy, alcoholic, a sex difference in (*tip*), December, p. 95
carotid bruits (*tip*), November, p. 191
central nervous system leukemia, preventing, *November, p. 106
cerebrospinal fluid evaluation in neonates (*tip*), November, p. 186
cervical esophagus, penetrating wounds of (*tip*), August, p. 110
chemotherapy for osteogenic sarcoma (*tip*), August, p. 113
children
—after the child dies (*tip*), September, p. 163
—aspirin hepatitis (*tip*), September, p. 165
—breast feeding and polio vaccination (*tip*), September, p. 171
—cerebrospinal fluid evaluation in neonates (*tip*), November, p. 186
—checklist for adolescent pregnancy, *July, p. 78
—childhood anemia, *October, p. 124
—clinical evaluation of proteinuria (*tip*), September, p. 151
—dermal anomalies of the craniospinal axis (*tip*), August, p. 113
—dermoid cysts (*tip*), November, p. 193
—encopresis (*tip*), July, p. 109
—epidemiology of proteinuria and hematuria (*tip*), November, p. 209
—epiglottiditis (*tip*), October, p. 161
—'growing' skull fractures (*tip*), August, p. 115
—hepatitis B antigen in infants (*tip*), July, p. 113
—hysterical polydipsia (*tip*), October, p. 163
—iodide therapy of asthma (*tip*), November, p. 191
—malnutrition and growth (*tip*), September, p. 171
—patent ductus arteriosus (*tip*), November, p. 205
—preventing central nervous system leukemia, *November, p. 106
—respiratory illness in day care centers (*tip*), November, p. 196
—scalded-skin syndrome (*tip*), November, p. 187
—school-age, health of (*tip*), October, p. 168
—sudden infant death syndrome (*tip*), October, p. 165
—testosterone treatment of tall boys (*tip*), October, p. 165
—water beds and premature infants (*tip*), November, p. 201
cigar inhaling (*tip*), September, p. 167
Citizen's Choice (*ed*), December, p. 57
CMSS names Dr. Wilbur executive vice president, July, p. 127
colorectum, villous adenomas of (*tip*), November, p. 192
congressional pay raises (*ed*), September, p. 69
Consumer Product Safety Commission reports
—(*ed*), August, p. 55
—continued (*ed*), November p. 75
continuing medical education and the ubiquitous computer (*ed*), November, p. 73
coronary angiography, reflex vasodilatation during (*tip*), November, p. 193
coronary arteries, normal, myocardial infarction with (*tip*), November, p. 197
costosternal syndrome (*tip*), November, p. 200
craniospinal axis, dermal anomalies of (*tip*), August, p. 113

d

day care centers, respiratory illness in (*tip*), November, p. 196
depression, common errors in the treatment of, *August, p. 60
dermal anomalies of the craniospinal axis (*tip*), August, p. 113
dermoid cysts (*tip*), November, p. 193
desmoid tumor (*tip*), August, p. 117
diabetic foot, pathophysiology of (*tip*), October, p. 157
diabetic osteopathy of the foot and ankle, *September, p. 90
diabetic retinopathy, *July, p. 60
digitalis, arterial baroreceptors and (*tip*), December, p. 91
diuretics, inappropriate use of, in surgical patients (*tip*), September, p. 151
drug substitution and liability (*ed*), August, p. 53
drug use among high school students (*tip*), September, p. 157
drugs
—new nonsteroidal anti-inflammatory, *September, p. 142

—specific, limiting permission of physicians to prescribe (*ed*), August, p. 55
ductus arteriosus, patent, PGE_2 for maintaining (*tip*), December, p. 95

e

elderly patients, pacemakers in (*tip*), December, p. 97
emergency room, abdominal pain in (*tip*), November, p. 207
encopresis (*tip*), July, p. 109
endoscopy, jejunal intubation by (*tip*), September, p. 165
epidermoid anal carcinoma (*tip*), July, p. 105
epiglottiditis (*tip*), October, p. 161
epistaxis, *December, p. 78
esophagus
—cervical, penetrating wounds of (*tip*), August, p. 110
—rupture of (*tip*), October, p. 167
estrogen found safe for menopause treatment, October, p. 173

f

facts and nonfacts in newspaper journalism (*ed*), October, p. 75
family doctors, family dentists (*ed*), October, p. 77
federal government guilty of conflict of interest, says FAH director, August, p. 126
fire fighters neglect victims, analyst says, September, p. 179
flu vaccine imbroglio (*ed*), December, p. 57
foot
—and ankle, diabetic osteopathy of, *September, p. 90
—diabetic, pathophysiology of (*tip*), October, p. 157

g

gallbladder disease in the young male (*tip*), November, p. 200
gallium-67 in pulmonary diseases (*tip*), October, p. 151
gastrin, plasma and parathyroid tumor tissue (*tip*), October, p. 163
gastrointestinal bleeding, occult, diagnosis of (*tip*), November, p. 186
'growing' skull fractures (*tip*), August, p. 115
growth, malnutrition and (*tip*), September, p. 171

h

hallucinogen abuse, management of, *July, p. 82
hand, athletic injuries of, *November, p. 136
health insurance, national (*ed*), September, p. 65
heart
—arterial baroreceptors and digitalis (*tip*), December, p. 91
—bacteremia following tooth extraction (*tip*), December, p. 91
—cardiac murmurs in young healthy women (*tip*), November, p. 203
—complications of cardiac pacemakers, *July, p. 66
—complications of closed chest cardiac massage (*tip*), December, p. 93
—disease, coronary, smoking and lung cancer and (*tip*), September, p. 153
—displacement cardiograph (*tip*), September, p. 155
—hemodialysis fistula cardiac failure (*tip*), July, p. 111
—methyldopa and cardiac function (*tip*), November, p. 209
—methylprednisolone and cardiopulmonary bypass (*tip*), July, p. 113
—miliary tuberculosis following homograft valve replacement (*tip*), October, p. 155
—myocardial contractile state after quinidine administration (*tip*), September, p. 159
—myocardial infarction with normal coronary arteries (*tip*), November, p. 197
—nitrous oxide in acute myocardial infarction (*tip*), November, p. 205
—optimum therapy for angina pectoris, *August, p. 102
—pacemakers in elderly patients (*tip*), December, p. 97
—patent ductus arteriosus (*tip*), November, p. 205
—PGE_2 for maintaining patent ductus arteriosus (*tip*), December, p. 95
—propranolol and management of arrhythmias, *November, p. 146
—repair of atrial septal defect in older patients (*tip*), October, p. 152
—sex difference in alcoholic cardiomyopathy (*tip*), December, p. 95
—testosterone may be a major risk factor in development of cardiovascular disease, October, p. 173
heatstroke (*tip*), July, p. 105
hematuria, epidemiology of proteinuria and (*tip*), November, p. 209
hemodialysis, severe hypercalcemia treated with (*tip*), December, p. 91

hemodialysis fistula cardiac failure (*tip*), July, p. 111
hemostasis, effects of acetaminophen vs. aspirin on (*tip*), November, p. 203
heparinization, prophylactic (*tip*), August, p. 117
hepatitis, aspirin (*tip*), September, p. 165
hepatitis B antigen in infants (*tip*), July, p. 113
herpes zoster, symptoms of, alleviated by local anesthetics, say Chicago MDs, November, p. 213
high school students, drug use among (*tip*), September, p. 157
Hodgkin's disease
—mediastinal (*tip*), October, p. 159
—staging of (*tip*), August, p. 109
hospitals, unions, the VA, etc. (*ed*), August, p. 53
hyperalimentation in inflammatory bowel disease (*tip*), November, p. 196
hypercalcemia
—calcitonin treatment of (*tip*), August, p. 109
—severe, treated with hemodialysis (*tip*), December, p. 91
hyperlipemia, a pathophysiologic approach to managing, *August, p. 78
hypertension
—office management of, *July, p. 90
—portal, vasopressin for (*tip*), September, p. 169
—salt and (*ed*), October, p. 77
hyperthermia, malignant, with enflurane anesthesia (*tip*), September, p. 152
hyperuricemia, treatment of, *July, p. 98
hypochondriac, caring for, *September, p. 98
hypothyroidism, treatment of, *November, p. 170
hypoxic pulmonary vasoconstriction, attenuation of (*tip*), December, p. 93
hysterical polydipsia (*tip*), October, p. 163

i

immune response, effects of operation on (*tip*), October, p. 161
immunization month (*ed*), October, p. 79
immunizations for international travel, *October, p. 138
industrial ocular injuries, *November, p. 115
infantile autism, early, is probably genetic, says Connecticut MD, October, p. 178
influenza: current concepts, *September, p. 72
influenza vaccinations, diabetics should obtain, says ADA president, December, p. 100
influenza virus
—and leukocyte function (*tip*), November, p. 185
—transplacental passage of (*tip*), July, p. 109
intensive care unit, surgical, psychologic problems in (*tip*), November, p. 201
intestinal bypass, small, renal failure after (*tip*), July, p. 106
intestinal parasites, routine screening for (*tip*), July, p. 111
intra-arterial embolization for vascular malformations (*tip*), October, p. 167
iodide therapy of asthma (*tip*), November, p. 191

j

jejunal intubation by endoscopy (*tip*), September, p. 165

k

kidney and liver failure, antimicrobials in, *August, p. 92

l

leukemia, major surgery in (*tip*), July, p. 106
leukocyte function, influenza virus and (*tip*), November, p. 185
liquids, consumption of (*ed*), September, p. 69
liver failure, kidney and, antimicrobials in, *August, p. 92
lobar consolidation in pulmonary embolism (*tip*), October, p. 155
Louisiana Purchase, accrued interest on purchase price of (*ed*), July, p. 55

m

malnutrition and growth (*tip*), September, p. 171
malpractice insurance, rising costs of, hospitals raise rates due to, October, p. 178
mammography
—ACS issues statement on use of, December, p. 99
—improved x-ray system safer for, say Wisconsin physicists, November, p. 217
marijuana, intravenous (*tip*), November, p. 197
mediastinal Hodgkin's disease (*tip*), October, p. 159
medical art on display in Boston, August, p. 123
medical discipline, AMA proposes model bills on, November, p. 219
methyldopa and cardiac function (*tip*), November, p. 209

methylprednisolone and cardiopulmonary bypass (*tip*), July, p. 113
myocardial contractile state after quinidine administration (*tip*), September, p. 159
myocardial infarction
—acute, nitrous oxide in (*tip*), November, p. 205
—with normal coronary arteries (*tip*), November, p. 197

n

nafcillin, pseudoproteinuria caused by (*tip*), November, p. 207
national health care authority proposed by Dr. Charles Edwards (*ed*), July, p. 53
neck at C5, cross section of, *October, p. 114
nitrous oxide in acute myocardial infarction (*tip*), November, p. 205
nonsteroidal anti-inflammatory drugs, new, *September, p. 142

o

obese middle-aged women, weight reduction in (*tip*), September, p. 161
obstetrics
—checklist for adolescent pregnancy, *July, p. 78
—drinking during pregnancy can cause birth defects, says pediatrics professor, November, p. 219
—relactation, *August, p. 69
—transplacental passage of influenza virus (*tip*), July, p. 109
—ultrasound in, *September, p. 130
—umbilicus, *November, p. 96
ocular foreign bodies, management of, *September, p. 81
ocular injuries, industrial, *November, p. 115
osteogenic sarcoma, chemotherapy for (*tip*), August, p. 113
osteopathy, diabetic, of the foot and ankle, *September, p. 90
osteopenic states, common adult, osteoporosis and osteomalacia, *November, p. 160
ozone reduction, EPA initiates study of, December, p. 100

p

pacemakers
—cardiac, complications of, *July, p. 66
—in elderly patients (*tip*), December, p. 97
pancreatitis, acute (*tip*), October, p. 159
Pap smears, breast examinations with, *October, p. 119
paraplegics walk, stand, climb stairs, machine helps, September, p. 180
parasites, intestinal, routine screening for (*tip*), July, p. 111
patent ductus arteriosus
—(*tip*), November, p. 205
—PGE_2 for maintaining (*tip*), December, p. 95
patient monitoring system, computerized (*tip*), September, p. 157
pilonidal sinus (*tip*), July, p. 106
plasma and parathyroid tumor tissue gastrin (*tip*), October, p. 163
platelet function in Wilson's disease (*tip*), November, p. 203
pleural effusion in pulmonary embolism (*tip*), November, p. 185
pleural involvement in sarcoidosis (*tip*), December, p. 97
polio vaccination, breast feeding and (*tip*), September, p. 171
polydipsia, hysterical (*tip*), October, p. 163
premature infants, water beds and (*tip*), November, p. 201
primary care conference (*ed*), July, p. 53
primary care specialists, council says internists are, September, p. 182
propranolol and management of arrhythmias, *November, p. 146
proteinuria
—and hematuria, epidemiology of (*tip*), November, p. 209
—clinical evaluation of (*tip*), September, p. 151
Pseudomonas infections, *November, p. 84
pseudoproteinuria caused by nafcillin (*tip*), November, p. 207
psychiatric nurse psychiatrists (*ed*), November, p. 73
psychologic problems in the surgical intensive care unit (*tip*), November, p. 201
pulmonary diseases, gallium-67 in (*tip*), October, p. 151
pulmonary embolism
—after vein stripping (*tip*), October, p. 151
—lobar consolidation in (*tip*), October, p. 155
—pleural effusion in (*tip*), November, p. 185
pulmonary nodules, solitary, evaluation of (*tip*), August, p. 109
pulmonary vasoconstriction, hypoxic, attenuation of (*tip*), December, p. 93

q

quinidine administration, myocardial contractile state after (*tip*), September, p. 159

r

relactation, *August, p. 69
renal failure after small intestinal bypass (*tip*), July, p. 106
renal vein renin ratio (*tip*), September, p. 167
respiratory illness in day care centers (*tip*), November, p. 196
respiratory stimulants? (*ed*), November, p. 77
retinopathy, diabetic, *July, p. 60
Rocky Mountain spotted fever, diagnosis of (*tip*), December, p. 95

s

sarcoidosis, pleural involvement in (*tip*), December, p. 97
scalded-skin syndrome (*tip*), November, p. 187
seriously ill, new program in Iowa aids, November, p. 215
SIDS, breast-feeding and (*info pl*), September, p. 173
sinus, pilonidal (*tip*), July, p. 106
skull fractures, 'growing' (*tip*), August, p. 115
'slapped cheek' disease (*ed*), December, p. 61
smoking and lung cancer and coronary heart disease (*tip*), September, p. 153
Social Security enigma (*ed*), October, p. 73
sterilization of the mentally retarded, MDs suggest guidelines for, September, p. 180
sudden infant death syndrome (*tip*), October, p. 165
'Superdome' cost (*ed*), September, p. 69
surgery
—abdominal pain in the emergency room (*tip*), November, p. 207
—athletic injuries of the hand, *November, p. 136
—dermoid cysts (*tip*), November, p. 193
—desmoid tumor (*tip*), August, p. 117
—diagnosis of occult gastrointestinal bleeding (*tip*), November, p. 186
—effects of operation on immune response (*tip*), October, p. 161
—evaluation of solitary pulmonary nodules (*tip*), August, p. 109
—gallbladder disease in the young male (*tip*), November, p. 200
—hemodialysis fistula cardiac failure (*tip*), July, p. 111
—hyperalimentation in inflammatory bowel disease (*tip*), November, p. 196
—inappropriate use of diuretics in surgical patients (*tip*), September, p. 151
—intra-arterial embolization for vascular malformations (*tip*), October, p. 167
—intraoperative autotransfusion (*tip*), October, p. 153
—jejunal intubation by endoscopy (*tip*), September, p. 165
—major, in leukemia (*tip*), July, p. 106
—malignant hyperthermia with enflurane anesthesia (*tip*), September, p. 152
—management of warts, *October, p. 96
—methylprednisolone and cardiopulmonary bypass (*tip*), July, p. 113
—miliary tuberculosis following homograft valve replacement (*tip*), October, p. 155
—noninvasive prevention of deep vein thrombosis, *November, p. 128
—penetrating wounds of the cervical esophagus (*tip*), August, p. 110
—pilonidal sinus (*tip*), July, p. 106
—plasma and parathyroid tumor tissue gastrin (*tip*), October, p. 163
—prophylactic heparinization (*tip*), August, p. 117
—psychologic problems in the surgical intensive care unit (*tip*), November, p. 201
—pulmonary embolism after vein stripping (*tip*), October, p. 151
—renal failure after small intestinal bypass (*tip*), July, p. 106
—renal vein renin ratio (*tip*), September, p. 167
—rupture of the esophagus (*tip*), October, p. 167
—staging of Hodgkin's disease (*tip*), August, p. 109
—vasopressin for portal hypertension (*tip*), September, p. 169
—villous adenomas of the colorectum (*tip*), November, p. 192
syphilis—recommended treatment schedules, 1976, *September, p. 119

t

testosterone metabolism in alcoholics (*tip*), October, p. 168
testosterone treatment of tall boys (*tip*), October, p. 165
theophylline can be toxic even in accepted doses, October, p. 177
thrombosis, deep vein, noninvasive prevention, *November, p. 128
TM, physiology of, *November, p. 155
tooth extraction, bacteremia following (*tip*), December, p. 91

toxic substances control law, Ford signs, December, p. 99
transcendental meditation, physiology of, *November, p. 155
travel, international, immunizations for, *October, p. 138
tuberculosis, miliary, following homograft valve replacement (*tip*), October, p. 155
TV violence (*ed*), September, p. 65

u

ultrasonography for aortic aneurysm (*tip*), September, p. 161
ultrasound in obstetrics, *September, p. 130
umbilicus, *November, p. 96
urinary tract infection, chronic (*info pl*), September, p. 173

v

vascular malformations, intra-arterial embolization for (*tip*), October, p. 167
vasodilatation, reflex, during coronary angiography (*tip*), November, p. 193
vasopressin for portal hypertension (*tip*), September, p. 169
vein stripping, pulmonary embolism after (*tip*), October, p. 151
vein thrombosis, deep, noninvasive prevention of, *November, p. 128
venereal disease, a few tips in treating, *September, p. 105
vertigo, *October, p. 84
villous adenomas of the colorectum (*tip*), November p. 192

w

warts, management of, *October, p. 96
water beds and premature infants (*tip*), November, p. 201
weight reduction in obese middle-aged women (*tip*), September, p. 161
Wilson's disease, platelet function in (*tip*), November, p. 203
